**RECITALS**

- A. The Releasor wishes to have the permanent cosmetic procedure(s) or Microneedling (for wrinkles, scarring or brown spot removal) performed by the Releasee.
- B. The Releasor has been informed by the Releasee that permanent cosmetics is the same as tattooing. Therefore the facial area will be cosmetically tattooed. Color will be implanted into the skin and as a result, the skin will be permanently altered.
- C. The Releasor has been informed by the Releasee that there may be pain involved in the procedure(s).
- D. The Releasor has been informed by the Releasee that there may be adverse side effects such as swelling, bruising (extremely rare), temporary minor bleeding, redness or pinkness and soreness.
- E. The Releasor has been informed by the Releasee that with the permanent cosmetic facial tattoo procedure there may be some fading of color. The Releasee has made no guarantees or promises to the Releasor as to how much color will be retained. Color may have to be reapplied to desire area before satisfaction of the desired color is obtained. The Releasor has been informed by the Releasee that there may be additional charges for each re-application of color.
- F. The Releasor has been informed by the Releasee that pigment may migrate or spread to an undesired area.
- G. The Releasor has been informed by the Releasee that the lips may feel dry and tight after a lip procedure.
- H. The Releasor has been informed by the Releasee that eye injury may occur from the cosmetic eyeliner tattoo procedure.
- I. The Releasor has been informed by the Releasee that a secondary infection can occur, although rare and that post-op procedure care instructions will have to be followed in order to help prevent this from occurring.
- J. The Releasor has been informed by the Releasee that an allergic reaction may occur from the pigment used in the permanent cosmetic lip procedure.
- K. The Releasor has been informed by the Releasee that fever blisters or cold sores may occur after the permanent cosmetic lip procedure if the Releasor is prone to having them. The Releasor has been informed by the Releasee to obtain a prescription for Zovirax or like medication and take as prescribed for two weeks prior to the permanent cosmetic lip procedure that will be performed to help prevent this.
- L. The Releasor has been informed by the Releasee that as a safety precaution, she/he may want someone to accompany you by driving after your permanent cosmetic eye procedure.
- M. The Releasor has been informed by the Releasee not to take any aspirin. Permanent cosmetics facial tattoo procedure may promote bleeding. Other pain relievers that don't promote bleeding may be taken.
- N. The Releasor has been informed by the Releasee that a low level magnet may be required if the Releasor is ever scanned by a MRI machine because pigments used in the permanent cosmetic procedure(s) may contain inert oxides. The Releasor agrees to inform the MRI technician of such.
- O. The Releasor has been informed by the Releasee not to wear any contact lenses during the permanent cosmetic eyeliner procedure. An antihistamine may be taken in order to help prevent excessively watery eyes.
- P. The Releasor has been informed by the Releasee to wait one year after tattoo procedure before donating blood.
- Q. The Releasor has been informed by the Releasee to inform any medical personnel or professional esthetician of your cosmetic facial tattoo if a chemical peel, MRI, or plastic surgery is to be performed near or over the cosmetic facial tattoo.
- R. The Releasor has been informed by the Releasee to use sun screen on a daily basis because constant exposure of the cosmetic facial tattoo to the sun may fade the color or even cause irritation to the skin.
- S. The Releasor has read and having been verbally told of all the above recitals by the Releasee, the Releasor never the less desire to have the permanent cosmetic facial tattoo procedures(s) performed by the Releasee and is willing to enter into this agreement.
- T. The Releasor has been informed that any method used to effectively remove the permanent make-up may result in scarring and/or permanent disfigurement of the face.
- U. The Releasor has been informed that hyperpigmentation may occur from procedures done on the face, as in the case of skin imperfection removal.

I have read, been verbally told, and understand each of the above recitals.
